

All blast hits with score > 50, 7/8-gene x/y windows (heatmap range: 2-5+ hits/window)

Sbro: gene rank order position (18724 genes w/ blast hits), grids every 1000 genes

Tgra: gene rank order position (21403 genes w/ blast hits), grids every 1000 genes

Blast hits where query and target are in the same orthogroup, 7/8-gene x/y windows (heatmap range: 1–5+ hits/window)

Sbro: gene rank order position (15075 genes w/ blast hits), grids every 1000 genes

Tgra: gene rank order position (15743 genes w/ blast hits), grids every 1000 genes
